Calla

Unforgettable®

8-11 weeks

7-30 cm

Sprint Horticulture are the distributor of Dummen Orange Calla Lily tubers throughout Australia.

Dummen Orange are the only supplier with a fully integrated supply chain. From in-house breeding, production and processing facilities alongside state of the art storage facilities and quality control, Dummen Orange are regarded as the global leader in Calla tuber supply. These factors result in the highest quality tuber product along with top quality service. As Dummen Orange is the largest grower of Calla tubers in the world, Sprint are able to offer an invaluable resource of information and technical support to our growers.

Crop times are generally between 8-11 weeks to flower. Can be grown all year round if the correct conditions are provided.

Tubers are available in sizes 10/12, 12/14, 14/16, 16/18, 18/20, 20/24 and 24cm+ measured by circumference.

Heuchera & Heucherella

Lush Botanicals™

Sprint has a broad range of Heuchera, Heucherella and Tiarella varieties sourced from the best breeders across the world. These genera provide the industry and gardeners with a multitude of "colours for the shade".

In recent years more sun tolerant varieties have been developed and we tested 75 varieties to determine the best in full sun. Based on our trial results we can now offer both shade and sun hardy varieties.

Heucheras take at least 6 months to produce in the tissue culture labratory. Therefore forward booking is essential to secure your choices.

Petit™

HibisQs® Petit™ is a newly developed type of Hibiscus, characterized with a lot of smaller, but beautiful flowers. The Petits are bred for the modern consumers who desire a minimalist, yet exotic look to suit their urban lifestyle, inside as well as out.

The Petit's grow into a well branched, compact plant which will be adorned in flowers within a short growing time.

HibisQs® Petit™ loves and needs light - and should therefore be placed in a bright spot, giving the HibisQs® Petit™ its daily gleam of sunshine. The HibisQ Petit's are suited for indoor and patio or garden use.

HibisQ Petit was first released at IPM Essen, in Germany in January 2017, where it won the 'IPM Innovation Award 2017' in the category 'Flowering Pot Plants'. HibisQs® Petit™ was also awarded 3rd place at RHS Chelsea Flower Show 2017 in the category "Plant of the year"

SPRINT

Oriental Lace™

Hydrangea hybrid 'March4' (D

Oriental Lace[™] is an innovative new tropical hybrid Hydrangea which produces XXL Lace cap blooms with no winter vernalisation.

Unlike traditional Hydrangea varieties this unique new variety is suitable for growing in tropical areas including Queensland, due to not requiring any winter cold period to produce flowers. Oriental Lace $^{\text{\tiny M}}$ will flower profusely in early spring and will be followed up with more flowers through the summer and autumn. Oriental Lace $^{\text{\tiny M}}$ is also very suitable for use as an indoor flowering decoration.

Oriental Lace's™ extra-large lace cap blooms can be produced pink or blue. Depending on how you grow it the plant will reach approximately 60cm high and 50cm wide in the garden. No specialised pruning is required due to its easy to flower nature.

Sprint Trial Garden, Peats Ridge, NSW, July 2021
