NEW

Aphelandra

Snow White

Aphelandra Snow White is a compact foliage plant with glossy green and white foliage. Plants produce upright, waxy yellow flower spikes towards the end of Summer.

NEW

Begonia

maculata

Begonia maculata is known for its upright habit and oblong leaves with silver spots. The undersides of the leaves are a reddish purple. Produces small pale pink flowers in mid-late winter.

NEW

Ctenanthe Mini Mak

Chlorophytum

Zebrina & Ocean

 9-25
cm

A new selection of Spider plant that remains extremely compact and makes a wonderful indoor pot plant. This variety does not throw runners like other spider plants, which helps keep its appearance neat and tidy.

This is a fast growing new selection of spider plant with broader and shorter leaves than traditional Chlorophytum varieties. It has an attractive cascading appearance that is bold and vigorous, making it perfect for hanging baskets and larger indoor displays.

Zebrina

Ocean

Bushy and
compact
plugs!

Dieffenbachia

Cool Beauty & Tropic Marianne

 14-30
cm

Cool Beauty has a distinct white leaf margin, with rings of deep green, pale green, and very pale yellow/white centers. Cool Beauty has a dense, upright habit with abundant production of short leaves.

Tropic Marianne has striking broad leaves with deep green margins and bright lime coloured centres. Tropic Marianne has a dense, upright branched habit.

Cool Beauty

Tropic Marianne

Epipremnum

pinniatum

Similar to Monstera, these are vigorous plants which have a climbing habit and produce wonderful split leaves from a relatively early age.

Very tough, with deep green, glossy leaves. Suitable for 14cm but utilise a large pot or basket to highlight its habit and split leaves best.

Fatsia

Spiders Web

Variegation is visible in young plants!

Homalomena

Camouflage & Maggy

 14-30
cm

Homalomena Camouflage is a compact plant with velvety matte leaves and mottled foliage that spreads from the centre outwards.

Homalomena Maggy is a clump forming variety with large heart shaped leaves and upright pink/orange stems.

Camouflage

Maggy

Monstera

NEW

obliqua

Produced from tissue culture. New to our range, this variety is a form of Swiss Cheese plant with larger and more rounded holes in its leaves. Plugs supplied as singles.

adonsonii

Produced from tissue culture, this a vigorous form of Swiss Cheese plant that is perfect for pot plants, hanging baskets or trellis. Plugs supplied as singles.

deliciosa Clump

Produced from tissue culture with minimum of two shoots, this is ideal for planting to give a quicker, fuller effect in pots.

Multi shooted plugs!

Peperomia

Mini Watermelon & *obtusifolia*

Mini Watermelon produces oblong leaves with a silver and green stripe pattern.

Peperomia Obtusifolia has thick, upright stems with glossy, green spoon shaped leaves.

Mini Watermelon

obtusifolia

Philodendron

 9-14

Philodendron gray 'Silver Sword'

Philodendron squamiferum

Philodendron Super Atom

Philodendron minima

Philodendron Birkin

Pilea

Aluminium Plant & Moon Valley

 9-20
cm

Aluminium Plant has a bushy habit with oval leaves and distinctive silver markings.

Moon Valley is a striking variety with deep copper coloured valleys and vibrant yellow/green leaves. Small pink flowers may appear in Spring.

Aluminium Plant

Moon Valley

Spathiphyllum

Flower Bunch & JET™ Diamond

 9-25
cm

Flower Bunch is a dense growing, highly clumping variety which remains compact in height. Highly floriferous and responsive to GA treatment, Flowerbunch is suited to scheduled sales all year round.

Flower Bunch

JET™ Diamond is an exciting variegated variety of Spathiphyllum suitable for a wide range of pot sizes. Diamond has a dense, well branched habit and produces white flowers in Spring,

Jet Diamond

Compact, multi
shooted plugs!

Schefflera

Alpine

Alpine is an upright variety with a compact habit. The variety has a slender form perfect for indoor uses.

NEW

Xanthosoma

lindenii

Also known as Calladium lindenii this variety is a striking upright variety with large elongated heart-shaped leaves and cream veins.

Zamioculcas

Jungle Warrior

 12-30
cm

Zamioculcas zamiifolia 'Heemsprix' ♂

Commonly called the ZZ plant, *Zamioculcus zamiifolia* loves low light and has low water requirements. This take on the standard ZZ plant has black mature leaves.

Jungle Warrior's bright lime leaves and stem turn black as the individual shoots mature.

Shipped as
9cm pots
