Pebbles & Stones

Fargesia nitida

PBR to be applied

The small leaves of Pebbles & Stones and its huge amount of narrow stems lend it to pruning or cutting into shapes. Excellent for hedges, balcony containers, restaurant dividers and patio pots.

Temp Tolerance
Med-High

Position
Full Sun

Growth rate
0.3-0.4m/year

Height
1.5m

Habit
Upright & Narrow

Pot Size
14-30cm

Pebbles & Stones can easily be cut into shapes.

Pebbles & Stones

Bamboo

Green Lion

Green Lion

Fargesia murielae

PBR to be applied

The stems of Green Lion arch outwards at the top, like a fountain of water. It has a fresh green colour - a lighter green compared to other *Fargesia*. Will tolerate shaded conditions. Can be used as an understorey plant. Leaves will curl if subjected to too much afternoon sun. Morning sun is the ideal amount of light for this variety.

Temp Tolerance
Low

Position
Part Shade

Growth rate
0.5-0.6m/year

Height
2.5m-3.5m

Habit
Arching outwards

Pot Size
14-30cm

Bamboo

Violet Woods

Fargesia murielae

PBR to be applied

Violet Woods has an upright and narrow habit, producing a dense thatch of stems which can be cut into narrow but high hedges. It is a very tough variety with smaller leaves which are less prone to curling. It has little insect problems because the new leaf sheaths that provide insect habitat shed naturally.

Bamboo

Arabica

Arabica

Fargesia murielae

PBR to be applied

The upright habit of Arabica makes it an excellent choice for creating vertical green walls along fencelines, to provide a tall privacy screen. It has extreme heat tolerance making it excellent for situations where drying out can occur, like in restaurant planter boxes. It provides a unique appearance with brown coloured stems.

14-30cm

Bamboo

Sunbird

Fargesia murielae

PBR to be applied

The blue-green leaf colour of Sunbird makes it unique amongst *Fargesia*. It is very heat tolerant. Its leaves don't curl when the potting media or soil gets dry. Hence, it is a good selection for balcony containers where drying out can often occur.
