Tea Time™

Naturally compact, easily programmed for events!

The Tea Time™ range offers the most compact varieties in the market, making them exceptional for supermarket sales. We now offer an extensive line up of bi-colour varieties to generate retail appeal. This coming season a number of new varieties will be supplied in limited quantities and these can be found on pages 12 and 13.

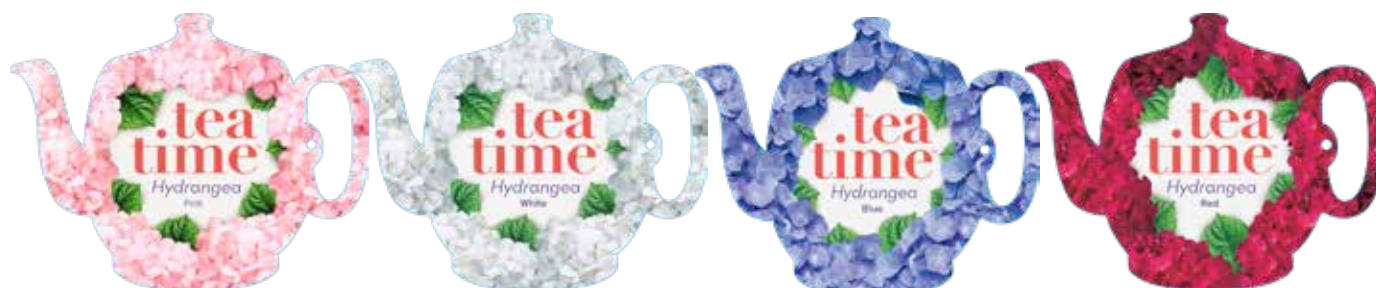

72 CELL TRAY

Overwintered rooted cuttings with a minimum one pinch are supplied from August to October. Spring rooted cuttings are supplied from October to January.

10.5CM POT

These overwintered pots are supplied in August. Flower initiated, they suit potting into a 20cm pot for flowering from October onwards.

Colour co-ordinated labels available!

4 proven compact varieties

Early Blue

Code: HY3

Colour change: Pink to blue

Extremely well branched and easy to initiate, making Early Blue a grower friendly choice.

Jip

Code: HY18

Colour change: Dark pink to dark blue

Produces dark pink flowers that when treated with Aluminium sulphate, turn dark blue.

4 proven compact varieties

Bianco
Code: HY14

A very compact, highly uniform variety with beautiful ball shaped flowers.

Speedy Red
Code: HY25
Colour change: Red to purple

Has vibrant red flowers that match Early Blue in timing. Compact and well branched.

Pink & Blue Flowering Varieties

PLUG DELIVERY PERIOD: Aug – Jan

Early Blue

Code: HY3

Colour change: Pink to blue

Extremely well branched and easy to initiate, making Early Blue a grower friendly choice.

 10-17
cm

Jip

Code: HY18

Colour change: Dark pink to dark blue

Produces dark pink flowers that when treated with Aluminium sulphate, turn dark blue.

 10-17
cm

Fabolo

Code: HY36

Colour change: Best to blue always

Responds very well to Aluminium sulphate. Should always be grown as a blue variety.

 14-20
cm

Pink Sensation

Code: HY5

Stunning soft pink, large ball shaped flowers. The most beautiful pink in the range. More vigorous than the compact selections. It is perfect for a large pot.

 14-30
cm

Red Flowering Varieties

PLUG DELIVERY PERIOD: Aug – Jan

Hot Red

Code: HY2

Colour change: Red to purple

The 'reddest' variety of the collection. Hot Red will flower 7-10 days later than Speedy Red. Matches Pink Sensation HY5 for timing. Has the same habit as Early Blue HY3.

 10-17
cm

Hortivoli

Code: HY9

Colour change: Pink to blue

A bicolor which is pink with a white edge. Can be treated with Aluminium sulphate to make it blue.

 10-17
cm

Red Beauty

Code: HY 7

Colour change: Red to purple

Medium sized, strong bright red flowers with a more vigorous growth habit.

 14-30
cm

Speedy Red

Code: HY25

Colour change: Red to purple

Avantgarde™

Hydrangea macrophylla 'Hedi' (D)

Flowers without a cooling period!

Avantgarde is a new type of re-blooming Hydrangea that will develop flowers without a vernalisation period, so flower induction can now occur in warmer northern areas. The huge 25cm diameter flowers last for over 2 months. They change from white to pink to green.

PLUG DELIVERY PERIOD: Jan – Dec

 17-25 cm
